EXPERIENCE

BetterPlace / Product Designer

Sept 2024 - Present (19 months)

Leading design for the Skilling (LMS) platform, building end-to-end learning and assessment experiences for frontline workers across both admin (B2B SaaS) and learner (mobile app) ecosystems.

- Reduced assessment creation time by 45% by redesigning end-to-end flow and simplifying complex configurations.
- Increased Customer(Admin) satisfaction by 6% by designing flexible evaluation and results system (objective, manual, AI-based scoring).
- Improved learner experience (navigation, discovery, progress tracking), driving 22% increase in course completion.
- Boosted engagement and completion rates by introducing gamified experiences across assessments, surveys, and courses
- Contributed to building a new AI-assisted design system using tools like Claude, Cursor, and Vercel
- Collaborated cross-functionally with product, engineering, and business teams to ship features in iterative releases

Jumbo Play / Founding Product Designer

Dec 2023 - June 2024 (7 months)

- Sole Designer in the 0→1 design from early concept to scale, growing product from 1K to 500K+ users across Android & iOS
- Designed and launched 3 gamified experiences, increasing engagement and repeat usage across core user flows
- Built core platform flows including onboarding, KYC, wallet, and transactions, improving trust, success rates, and reducing drop-offs in critical journeys
- Reduced user churn by 47% and improved activation by 25–30% by redesigning onboarding and simplifying first-time user journeys
- Conducted end-to-end user research (interviews, usability testing, on-ground feedback) to validate concepts and iterate on product decisions.

Voizo.ai / Product Design Intern

Sept 2023 - Nov 2023 (3 months)

- Super-headed the user interface design for a pre-seed AI startup, focusing on a seamless hiring process.
- Developed and refined employer and candidate dashboards, contributing to an engaging user journey.
- Adapted quickly to startup needs, delivering high-impact design solutions under tight deadlines.

Freelance / UX Designer

Jan 2023 - Nov 2025 (Contract & Freelance)

- Collaborated with **CEEW** (government-affiliated organisation) to implement a heat action plan into their webpage, prioritising user-friendliness and accessibility.
- Led end-to-end design of a short-video platform (TikTok-like), focusing on seamless content creation, discovery, and sharing experiences
- Designed listing and checkout flows for JustDogs, optimizing product discovery and streamlining purchase journey to reduce drop-offs

EDUCATION

Bachelor's in Technology

ABES-EC, Ghaziabad | 2017-22

- Led Operational Team for 1st college TEDx event.
- Progressed from volunteer to Decor Head within 1 year.
- Led team in designing theme-based decor for college events.

10+2

Air Force School Hindan | 2017-22

- NCC Cadet & got selected in RDC parade 2014
- Head of Blue House for 2 years (2015-17)
- State Level Basketball Player

SKILLS & TOOLS

Design

- System thinking
- AI experience design
- Data-driven design
- UI Design
- User Research
- Advanced Prototyping
- UX writing for AI and system states
- Usability testing & rapid iteration

Tools

- Figma
- Adobe Suite
- Framer

AI

- ChatGPT (Ideation, UX writing)
- FigmaMake (UI design, prototyping)
- Lovable (App prototyping, MVPs)
- Replit (Rapid coding, deployment)
- Stitch (UI generation, layouts)
- Claude (Deep reasoning, structuring)
- Cursor (Code prototyping, debugging)
- Manus (PPT, Task automation, workflows)
- NotebookLM (PPT, Research)
